Dear Puentes applicants - 2023,

Thank you very much for your application submission.

Congratulations! I am happy to inform you that you have been all selected as award recipients of the Research Grants.

All your proposals have been carefully revised by an evaluation committee and have been selected for the potential impact in the academic relations that could result from these collaborations.

We received a pretty large number of applications this year, and many of them were worth funding. For this reason, the operating committee decided to fund a total of 3 proposal with \$15,000 each, stretching our budget but, surely, multiplying the impact and enhancing our mission.

The Puentes administration will be sending a formal letter indicating the grant amount to each PI and explaining next steps on how to proceed to transfer these funds to your departments.

In the meantime, please make sure you reach out to an admin person that could work with me on providing bank information and sign invoices for Rice to process the deposits as soon as possible so you can begin working with your research teams.

Once again, congratulations and we wish you a successful implementation of your research projects in the next few months.

Best,

Ivonne C.
